EPSON

EXCEED YOUR VISION

THINK.
CREATE.
INNOVATE.

Perfectly engineered.
Down to the smallest details.

Epson is a global technology leader dedicated to becoming indispensable to society by connecting people, things and information with its original efficient, compact and precision technologies. The company is focused on driving innovations and exceeding customer expectations in inkjet, visual communications, wearables and robotics. Epson is proud of its contributions towards realising a sustainable society and its ongoing efforts in realising the Sustainable Development Goals of the United Nations.

Epson Print Admin

Boost productivity and monitor print usage with a server-based solution that creates a secure printing, scanning and copying environment through user-authentication.

Key Features

Pull printing
Users need ID card-authentication for printing. Printer receives the job from the server post authentication. This reduces leaks and deletes unnecessary prints.

Follow me printing
Users can use any printer in the network. This reduces wait-time as multiple users can print from different printers with authentication.

SMTP and LDAP sync
Users can scan without credentials. Settings need to be made based on scan preferences followed by scanning with authentication. The single-touch feature sends scans to network folders via mail.

Rule-based printing
Rule-based printing helps you set rules according to users and applications. Rules can be set for different needs from colour and span to budgets.

Security
You can secure printing operations by:

- Allowing printing only post authentication
- Deleting unnecessary prints
- Restricting print volumes for each user
- Recording print amounts, functions and outputs

Print and Retain
Users can save print data through settings. Once saved, users can print with a single authentication, without PCs.

Compatibility
The Epson Print Admin supports all WorkForce printers except WF-100.

rips@eid.epson.co.in

Epson Remote Services

Epson Remote Service (ERS) is a free, innovative cloud-based monitoring and management system that delivers advanced remote diagnostics for Epson business products. ERS delivers faster response times, fewer on-site visits, higher first fix rates and is easily accessible from any device with a web browser.
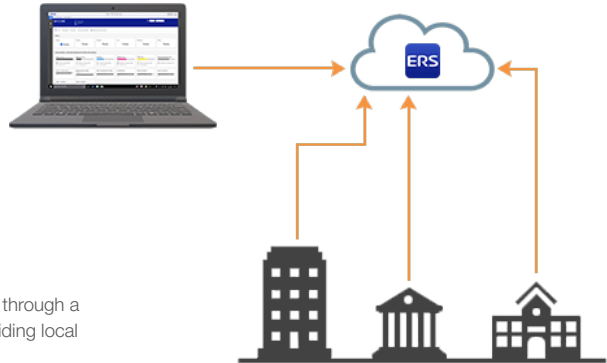

Key Features

Cloud-based
ERS can be accessed from anywhere through a computer, tablet or smartphone – avoiding local server installation and maintenance.

Intuitive user controls
A browser-based tool with an easy-to-use, modular user interface

Faster fixes
Increased device uptime; service technicians are armed with the information they need to achieve higher first fix rates.

Reduces downtime
With ERS, a potential breakdown can be avoided with preventive maintenance alerts.

Service Support
Helps Service Engineers to understand the error history of the printer from various LOGs.

Evo Tre 16/Evo Tre 32

PrecisionCore™ MicroTFP printhead

8-colour Epson Genesta inks

Direct-to-fabric printer

Flexible production to print on a wide range of fabrics

Configured with Reactive, Acid, Disperse and Pigment ink

Best-in-class quality and reliability

Prints up to 404 m² /h speed (16-head machine printer at 600 dpi 1-pass) / Prints up to 692 m² /h speed (32-head machine printer at 600 dpi 1-pass)

Available in 1.8 m, 2.2 m and 3.2 m printing width

Ideal for small run to long run digital printing on fabrics

1.8 m / 2.2 m / 3.2 m

Monna Lisa 8000

PrecisionCore™ MicroTFP printhead

8-colour Epson Genesta inks

Direct-to-fabric printer

Flexible production to print on a wide range of fabrics

Configured with Reactive, Acid, Disperse and Pigment ink

Best-in-class quality and reliability

Prints up to 402 m² /h speed (32-head machine printer at 600 dpi 2-pass)

Available in 1.8 m, 2.2 m and 3.2 m printing width

Ideal for small run to long run digital printing on fabrics

Blue Sign, GOTS and OEKO-TEX Eco Passport certificates for eco-friendly printing

1.8 m / 2.2 m / 3.2 m

Digital Label Press

SurePress® L-4533A/AW

Epson SurePress® AQ ink with green and orange

Seven-colour inkjet with white ink for high-quality printing, even on clear and metallic substrates

Prints directly on actual substrate without pre-coating**

Micro Piezo™ multi-printhead array

Dual drying system

Automatic colour management

Built-in rewinder unit

Built-in touchscreen print controller

Optional RIP software

33 cm x 100 cm (13" x 39.37")

**Supported substrates – Standard self-adhesive label substrate, semi-gloss, gloss and matte paper stock, BOPP, PET, Yupo and pre laminated film (80 to 320 microns).

SurePress® L-6534VW

Four-colour inkjet press with LED UV curing inks with white ink and digital varnish

50 m/min^ high-speed printing suitable for printing short-run and mid-run jobs

Prints directly on actual substrates

Quick drying UV inks with excellent weather, scratch, chemical and water resistance suitable for labels used in extreme outdoor conditions

Can use substrates of 80 mm ~ 320 mm width

Pinning technology for excellent print quality

Optional RIP software

33 cm x 100 cm (13" x 39.37")

DOCUMENT AND PHOTO SCANNERS

Capture Every Detail

Photo Scanners

Perfection™ V39

Zero warm-up time

Saves PDF documents in small file sizes at high resolution

High-quality scanning at 4800 x 4800 dpi

Colour restoration and dust removal function

USB-powered, low power consumption

Built-in kickstand

Mercury–free
LED light source

Perfection™ V600

Zero warm-up time

High-resolution scanning at 6,400 x 9,600 dpi

Scans 35 mm filmstrips effortlessly

Scan slides, negatives and medium-format panoramic film with built-in transparency unit

Colour restoration, dust, tears and creases removal function

Optical Density of 3.4

scanner@eid.epson.co.in

Perfection™ V850

Film scanning resolution of 6400 x 9600 dpi

Photo scanning resolution of 4800 x 9600 dpi

Enhanced image quality and fineness with new Dual Lens System

Professional image correction and enhancement

20.3 cm x 25.4 cm (8" x 10") built-in film adapter with filmholders for all common film formats

Restore faded film and photos to perfection

X-ray scanning

Optical Density 4.0

Expression™ 12000XL

Scan resolution of 2400 dpi (main scan) and 4800 dpi (Micro Step subscan)

Colour CCD line sensor

Document size up to 310 mm x 437 mm

Scan output resolution of up to 6400 dpi

High-speed USB interface

Energy-saving ReadyScan LED light source

WorkForce Document Scanners
Sheet-fed

WorkForce DS-310

Scan resolution of 600 dpi

Super-speed USB 3.0 interface

Conveniently portable at 1.1 kg (approx.)

Low power consumption of up to 8 W (Operating Mode)

Document size of up to 215.9 mm x 1,117.6 mm

Paper capacity of up to 20 sheets (80 g/m^2)

Scanning volume of up to 500 pages per day^

scanner@eid.epson.co.in

WorkForce DS-410

Scan resolution of 600 dpi

Super-speeds of up to 26 ppm^/52 ipm^ (Simplex/Duplex)

Daily duty cycle of 3,000 sheets^

Document size of up to 215.9 mm x 3,048 mm

Paper capacity of up 50 sheets

Scan to Dropbox®, Evernote®, Google Drive™, SharePoint® and more

WorkForce DS-530II

Scan resolution of 600 dpi

Scan speeds up to 35 ppm^/70 ipm^ (Simplex/Duplex)

Daily scan volume of 4,000 pages per day

Automatic Document Feeder with a capacity of 50 sheets

Versatile paper handling including stacks of business cards and ID cards, single sheets, extra-long pages and more

WorkForce DS-730N

Scan resolution of 600 dpi

Scan speeds up to 40 ppm^/ 80 ipm^ (Simplex/Duplex)

Daily scan volume of 4,500 pages per day

Automatic Document Feeder with a capacity of 100 sheets

Central device and job management and lockable control panel

Intuitive touchscreen controls for easy job processing

Built-in Ethernet and USB

ETHERNET

WorkForce DS-770II

Scan resolution of 600 dpi

Scan speeds up to 45 ppm^/90 ipm^ (Simplex/Duplex)

Automatic Document Feeder with a capacity of 100 sheets

Scan to Email, FTP, SharePoint®, Print, Web folders and Network folders

Scan to editable Word and Excel® files or searchable PDF files; OCR software included

Dynamic Skew Correction and Double-feed Detection to prevent missing pages

WorkForce DS-870

Scan speeds of up to 65 ppm^/130 ipm^ (Simplex/Duplex)

Scan resolution of 600 dpi

A3 scanning without carrier sheet

High-volume scanning up to 7,000 pages^ per day

Scan-to-print, email, Windows™ Public Folder, FTP, Web Folder, and Scan-to-Cloud services such as Microsoft® SharePoint Server, Evernote® and Google® Docs

WorkForce DS-970

Scan speeds of up to 85 ppm^/170 ipm^ (Simplex/Duplex)

Scan resolution of 600 dpi

A3 scanning without carrier sheet

High-volume scanning up to 9,000 pages^ per day

Scan-to-print, email, Windows™ Public Folder, FTP, Web Folder, and Scan-to-Cloud services such as Microsoft® SharePoint Server, Evernote® and Google® Docs

WorkForce Document Scanners
Sheet-fed with ADF

WorkForce DS-32000

Scan resolution of 1200 dpi

Scan speeds up to 90 ppm^/180 ipm^ (Simplex/Duplex)

Daily scan volume of 40,000 pages per day

Automatic Document Feeder with a capacity of 120 sheets (A4), 60 sheets (A3)

Easy-to-use 6.9 cm (2.7") touch screen display

A3

Portable Scanners

WorkForce ES-50

Scan speeds: 5.5 seconds per A4 sheet
Scan resolution of 600 dpi
Portable at 270 gm
Micro USB port
Daily scan volume of 300 sheets^ per day

reddot award 2019

WorkForce ES-60W

Fast scans at 4 seconds per A4 sheet
Fastest, smallest and lightest WiFi mobile scanner
Scan resolution of 600 dpi
Portable at 300 gm
USB or battery-powered
Wirelessly scan documents to a PC, Mac, iOS
or an Android device

reddot award 2019

Input data buffer – 128 kB

BILL PRINTERS
Grow Business and Customer Loyalty

TM-T82X

High-speed printing at 200 mm/sec^
Reliability at MCBF of 60 million lines
Easy connectivity with USB + Serial / Ethernet
Supports high-resolution graphics and barcodes
Easy-paper loading with auto-cutter (life of 1.5 million cuts^)

TM-T82III

High-speed printing at 250 mm/sec^
Reliability at MCBF of 60 million lines
Easy connectivity with USB + RS-232C; USB (capped) + Ethernet
and USB + Parallel
Supports high-resolution graphics and barcodes
Easy-paper loading with auto-cutter (life of 1.5 million cuts^)

pos@eid.epson.co.in

TM-T88VI

High-speed printing at 350 mm/sec^
Server Direct Print
Supports Android and Windows mobile devices
Auto-cutter life of 3 million cuts
Paper saving option
MCBF of 70 million lines
USB + Ethernet + Parallel/Serial + NFC
Multi-port printing

TM-m30II

Fast print speeds of up to 250 mm/sec^
Printer mechanism life of 15 million lines^
Interface - (USB + LAN) & (USB + LAN + Bluetooth)
Paper saving option
Supports iOS, Android, Mac and Windows mobile devices

TM-P20

Fast print speeds of up to 100 mm/sec^
Ultra-light weight at just 221 gm
Battery life of up to 26 hours (Bluetooth)^
Printer mechanism life of 10 million lines^
Interface – Bluetooth, NFC + USB Mini
Drop Impact Resistance of 6.5 ft (with soft case)^

Mobile Printer

TM-P80

Fast print speeds of up to 100 mm/sec^
Printer mechanism life of 10 million lines^
Interface – Bluetooth, USB Mini and NFC
Battery life of up to 40 hours (Bluetooth)^

Mobile Printer

TM-U220

Industry-standard POS printer
High-speed printing at 6 lps^
Paper end sensor
High reliability at 18 million lines^
1 original + 1 copy

TM-U295

World's smallest slip printer
1 original + 2 copies
Ultimate choice for cheque printing
Enables printing vertically as well as horizontally

LQ-50

24-pin, 50 col printer
Prints up to 15 cm media
1 original + 2 copies
High-speed printing at 300 cps^
Easy connectivity with Parallel and USB interface
Ribbon life - 3 million characters^
Optional roll feeder and stand

Supports 10 Indian Languages

Passbook Printers

LABEL PRINTERS
The Quick and Convenient Way to Stay Organised

LabelWorks™ LW-400

Ideal for your labelling needs – prints labels up to ~18 mm wide

Back-lit display – type and print labels in low-light conditions

Amazing variety – 14 fonts, 10 font styles, 457 built-in symbols, over 75 frames, barcodes and more

Less waste – smaller lead margin compared to other brands, for up to 60% less lead margin waste

Large built-in memory – store up to 50 self-created label designs

Prints up to two lines of text – more space for you to add specialty frames or symbols to enhance your design

LabelWorks™ LW-700

Ideal for your labelling needs – prints labels up to ~24 mm wide

Back-lit display – type and print labels in low-light conditions

Amazing variety – 14 fonts, 10 font styles, 450+ built-in symbols, over 75+ frames, barcodes and more

Less waste – smaller lead margin compared to other brands, for up to 60% less lead margin waste

Large built-in memory – store up to 100 self-created label designs

labels@eid.epson.co.in

LabelWorks™ LW-1000P

Print speed of up to 35 mm/sec^
Print resolution of 360 dpi
Tape widths range from 9 mm (0.35") to 36 mm (1.4")
Easy-to-use Epson Label Editor software included
Ideal for office labelling, filing, storage, asset tagging and barcode printing
USB, WiFi and WiFi Direct
Supports Epson iLabel for smart devices

ColorWorks™ C3510

High-yield, 4-colour pigment ink system
Print resolution of 720 x 360 dpi
Printing width of up to 104 mm (4.1")
Printing speed of up to 103 mm/sec^
Smudge, fade and water-resistant labels
Prints on plain, matte, glossy and synthetic media

ColorWorks™ C7510G

High-yield 4-colour ink system
Print resolution of 1200 x 600 dpi
Printing width of up to 104 mm (4.1")
Print speed of up to 300 mm/sec^
Smudge, fade and water-resistant pigment ink
Prints on plain, matte, glossy and synthetic media

ColorWorks™ C6050A

High-yield 4-colour ink system
Print resolution of up to 1200 x 1200 dpi
Print widths of up to 108 mm (4.25")
Auto-cutter function
Print speed of up to 119 mm/sec^
Smudge, fade and water-resistant pigment ink
Prints on plain, matte, glossy and synthetic media

ColorWorks™ C6050P

High-yield 4-colour ink system
Print resolution of up to 1200 x 1200 dpi
Print widths of up to 108 mm (4.25")
Peeler function
Print speed of up to 119 mm/sec^
Smudge, fade and water-resistant pigment ink
Prints on plain, matte, glossy and synthetic media

ColorWorks™ C6550A

High-yield 4-colour ink system
Print resolution of up to 1200 x 1200 dpi
Print width of up to 211 mm (8.3")
Auto-cutter function
Print speed of up to 85 mm/sec^
Smudge, fade and water-resistant pigment ink
Prints on plain, matte, glossy and synthetic media

ColorWorks™ C6550P

High-yield 4-colour ink system
Print resolution of up to 1200 x 1200 dpi
Print width of up to 211 mm (8.3")
Peeler function
Print speed of up to 85 mm/sec^
Smudge, fade and water-resistant pigment ink
Prints on plain, matte, glossy and synthetic media

ColorWorks™ Z5000WA

NEW

High-yield 4-colour ink system
New BR label roll kit with optional Rewinder
Print resolution of up to 300 dpi
Print width of up to 50 mm (2")
Half-cut Technology
Print speed of up to 50 mm/sec^
Smudge, fade and water-resistant pigment ink

Wireless Connectivity

WEARABLE DISPLAY
A New Way of Seeing the World

Moverio BT-350

Lightweight smart glasses at 129 g

3D-capable Si-OLED display

Durable hinge design accommodates a wide range of user head sizes

Dual display ideal for stereoscopic 3D content

Memory 16 GB with embedded microSDHC (32 GB/Class10)

EPSON INNOVATION

Micro Piezo Printhead
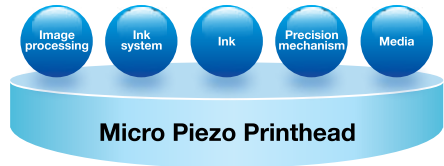

Micro Piezo™ Technology

One of Epson's core technologies, the Micro Piezo system, features Epson's unique Micro Piezo™ printheads combined with complementary technologies in image processing, ink systems, ink, media and precision mechanisms such as paper feeders.

Extraordinarily durable, Micro Piezo printheads deliver high image quality by precisely controlling the size and placement of every ink droplet.

3LCD Projection Technology

All Epson Projectors are powered by 3LCD technology. The innovative 3-chip design sets itself apart by delivering vibrant, true-to-life images with up to 3 times higher brightness.[5]

3-chip LCD projectors work by splitting white light into red, green and blue. These beams are directed to HTPS panels, to be recombined to form images giving Epson's business and home projectors their characteristic image brightness, natural colours and eye-friendliness.
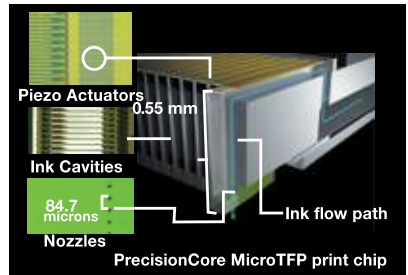

Epson's Heat-Free Technology

This is the next-generation of inkjet technology. The heart of the technology is an advanced print chip, based on MEMS technology, which uses a 1-micron thin piezo actuator that deposits ink with dramatic speed and precision.

Epson's Heat-Free Technology continues and extends Epson's tradition of providing renowned colour quality and output durability across the widest range of applications, delivering high-speed solutions for commercial, industrial and office printing.

Microdisplay Technology

Epson's microdisplay technology encompasses micro-fabricated HTPS panels (high-temperature polysilicon TFT liquid crystal panels), optical design and manufacturing technology. Forming the heart of Epson LCD projectors, this is the technology that has enabled Epson to stay on top in the global market for 19 consecutive years.

World & India's No.1 Projector
THE WORLD NO.1
19 YEARS RUNNING

Robotics Technology

Epson's robots technology traces its roots back to 1983, when the company developed its first precision assembly robots for use in watch production. Epson's robots are used in the electronics, automotive, food, and medical industries, to name a few.

Our precision control technology allows Epson's robots to be compact, lightweight and slim, thus giving them superior productivity per unit of area.

SCARA Robots   6-Axis Robots

All-round service.
All-round performance.

Meeting expectations is a tough job, but with Epson after-sales service you can be sure that we're more than happy to help you, whatever be your need.

Epson's network of independent service specialists offer authorised repair services. From replacement of Epson ink or paper to troubleshooting, diagnosis and repair, you'll find everything you need to keep your product in peak condition, including:

- Free advice
- Highly trained engineers
- On-the-spot repair or courier replacement service
- Comprehensive range of Epson inks, papers and accessories

In India, Epson has over 416 service centres across the country.

Get assistance in these easy steps[g]

1 **Give a missed call** to +91 96400 00333

2 **Click the chat link sent** to via SMS by BZ-EPSERV

3 **Type "Hi"** in the Epson India chat window

4 **And you're ready** to troubleshoot

*The total Colour CPP including black ink is 25 paise.
#Source: IDC Asia–Pacific Quarterly Hardcopy Peripherals Tracker FY2020 Q2. Volume Market Share of A4 Inkjet Printers and MFPs.
^Under standard test conditions.
†Prices are subject to change without prior notice.
‡Quoted CPP is based on the ink yield and the MRP of the ink bottle / ink cartridge / ink pack of the model. For more information, contact the respective Epson branch offices.
1For cost–per–print calculations, visit epson.co.in/parameters.
2The total Colour CPP including black ink is 32 paise.
3Refers to head firing time when using dual colour mode. Image size – 10" x 8" landscape. Applicable for white T–shirts only under standard test conditions.
4Futuresource Consulting.
5Colour brightness (colour light output) in brightest mode, measured by a third–party lab in accordance with IDMS 15.4. Colour brightness will vary depending on usage conditions. Top–selling Epson 3LCD projectors versus top–selling 1–chip DLP projectors based on NPD sales data for May 2017 – April 2018.
6IDC Asia/Pacific Quarterly Hardcopy Peripherals Tracker. Volume market share of 61.43% for the period of April–October 2019.
7Whichever comes first. Including printhead. Applicable for M1100, M1120, M1140, M1170, M1180, M2110, M2120, M2140, M2170, M3140, M3170 and M3180 only.
8Refers to the yield of ink sets / packs bundled along with the printer. The yield varies with Epson ink packs purchased separately.
9Colour brightness (colour light output) and white brightness (white light output) will vary depending on usage conditions. Colour light output measured in accordance with IDMS 15:4; white light output measured in accordance with ISO 21118.
¥Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.
¢Or 3 years, whichever comes first.
²2D–3D function cannot be used with other specialised video processing features like 4K enhancement, image interpolation etc.
⁴Mounting kit not included.
⁵Optional ink bottle.
