

INGENIOUS INFOTECH - 9869787200

Fingers play an important role while consuming digital and technological gadgets.

WE click...
touch...
feel...
carry...
work...
play...
move...

None other than with Fingers.

And, as we ponder a little more, Fingers communicate so much more.

We are sure, you make gestures with your fingers, consciously or subconsciously by

- Showing direction
- Bringing a point of view
- Expresses love
- On a cricket field with raised fingers - Either disappoints or makes us happy and so on...

Fingers communicate a lot... It's a language!

To establish "FINGERS" synonymous with "A New Language of Technology" is our endeavor.

FINGERS started by a team with over 100 years' of combined experience in Digital Accessories and Peripherals. And a track record of innovation and latest technology gadgets. At FINGERS, it will only be taken to the next level.

FINGERS products are crafted with love and highest attention to detail by a Dynamic Team that believes in being MAD - Making A Difference. A difference in the way you feel, play and experience Quality Technology. We believe technology should be Trendy and Innovative, yet speak in a way that moves and inspires you. And we stand for what we believe - A New Language - breaking the norms and stereotypes.

With immense happiness, we are excited to share - At a launch itself, FINGERS had 7 First timers in India, and out of that a staggering 4 for the First time in the World!

*Can withstand up to 18 drops with up to height of 1 m.

*Tested under ideal conditions and in Bluetooth® playback mode. Playback time may vary depending on usage, playback mode and volume levels.

*TWS function can only be enabled to pair two same portable speakers.

*Tested under limited conditions. Do not immerse in liquid. (Sweat resistant/Sweat proof/Sealed Membrane)

*FINGERS Pro Wireless PD-QC supports Power Delivery technology (18W Max). It can even charge Laptops using Type-C to Type-C cable.

Charging time for higher voltage devices may be longer than its original charger due to max. 18 W Power Output.

*Power Delivery is a fast charging technology, supported by certain IOS and Android devices, that delivers much higher levels of power than standard charging.

*Handle with Care and ensure your phone is placed properly.

* Images shown may vary from actual product. * Specifications, features and appearance are subject to change without notice. * All logos, brands, trademarks and product names are properties of their respective owners and protected under IPR. * Product warranty is governed by warranty terms mentioned on www.fingers.co.in * This product falls under e-waste (Management & Handling) Rules, 2011. For proper disposal method, visit our website www.fingers.co.in * Register your product and get a chance to win lucky draw.
